**BASF Corporation Responses to
Cedar Chemical Corporation Superfund Site Information Request**

Preliminary Background

BASF Corporation is a wholly owned subsidiary of BASF Americas Corporation. BASF Americas Corporation is a wholly owned subsidiary of BASFIN Corporation. BASF Corporation, BASF Americas Corporation, and BASFIN Corporation are all Delaware corporations. BASFIN Corporation is a majority owned subsidiary of BASF Nederland BV, a Dutch limited liability company, which in turn is a wholly owned subsidiary of BASF SE (Societas Europaea – “SE”) f/k/a BASF Aktiengesellschaft “BASF AG”, a publicly traded European Company, which does not do business in the United States. BASF Corporation, BASF Americas Corporation, BASFIN Corporation and BASF Nederland BV are not publicly held.

BASF Corporation (“BASF”) is the corporate successor to BASF Wyandotte Corporation and Inmont Corporation. In 1968, BASF Corporation was formed. In December 1970, BASF Corporation merged into Wyandotte Chemicals Corporation, whose name was simultaneously changed to BASF Wyandotte Corporation. In 1973 BASF Wyandotte Corporation was purchased by Luchem Corporation. Luchem Corporation’s name was changed to BASF America Corporation in 1978. In 1985 BASF America Corporation acquired Inmont Corporation from United Technologies Corporation. Inmont Corporation became a wholly-owned subsidiary of BASF America Corporation, known as BASFIN Corporation. In December 1985 BASF Wyandotte Corporation was merged with and into Inmont Corporation and simultaneously Inmont changed its name to “BASF Corporation.” On June 16, 1998 BASF acquired Micro Flo Company.
